

Ruowen Liu

Software Development Student — Applied AI & Software Systems

Tampere, Finland

ruowenliu@hotmail.com | +358 41 7299709 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SKILLS

Programming: Python, C, C++, JavaScript, TypeScript, SQL, MATLAB

Web & Tools: HTML/CSS, React, Node.js, full-stack development, Git, Atlassian Forge

Language: English (Fluent, IELTS 6.5), Chinese (Native), Finnish (Basic, CEFR A2.1)

EDUCATION

Tampere University

Tampere, Finland

B.Sc. (Tech.), Computing and Electrical Engineering — GPA: 5.0/5.0

Aug. 2024 – Jun. 2026 (expected)

- Major in **Software Development**. Minor in Applied Mathematics.
- **Key courses:** Database Basics (DATA.DB.100), Programming 3: Interfaces (COMP.CS.115), Data Structures and Algorithms 1 (COMP.CS.300), Introduction to Full Stack Development (COMP.CS.500), Computer Architecture (COMP.CE.130).

EXPERIENCE

Research Training – DataOps & Software Engineering

Tampere, Finland

Tutored by Dr. Sergio Moreschini, Tampere University

Nov. 2025 – Present

- Investigated Machine Learning Operations (**MLOps**) and Data Operations (**DataOps**) principles and their impact on Technical Debt, producing structured research notes under academic supervision.
- Conducted a systematic literature search across academic databases to identify and analyse DataOps practices.
- Traced and analyzed published studies to their associated public GitHub repositories to assess real-world DataOps implementations.
- **Keywords:** Software Engineering Research, MLOps, DataOps, Technical Debt, Repository Analysis.

Jira Bug Report Assistant

Tampere, Finland

Software Engineering Project (COMP.SE.610) — Tampere University

Sep. 2025 – Dec. 2025

- Developed an AI-assisted **Jira plugin** with Atlassian Forge to address low-quality bug reports by providing real-time feedback on issue descriptions.
- Implemented project page and issue panel modules with **Custom UI (React)**.
- Integrated OpenAI API for automated error detection, severity scoring, and natural-language improvement suggestions to support clearer bug reports.
- Collaborated with industry partners (Solita Oy.) and delivered MVPs with successful on-site installation and testing.
- **Tech stack:** Forge, React, JavaScript, Node.js, OpenAI API, Atlassian REST API.

A Simple Device for Observing the World in Droplets

China

Bachelor's Thesis — Huaqiao University

Dec. 2021 – May. 2022

- Score: 94/100 (Excellent(A)).
- Designed and built a low-cost laser projection microscopy system using a laser pointer and water droplets to magnify and visualize microbial structures.
- Developed and applied **MATLAB-based motion-tracking algorithms** that automatically captured and analyzed the swimming trajectories of microorganisms from video frames.
- **Keywords:** Laser Projection Microscopy, Optical Diffraction, Microbial Imaging, Video Data Processing.

EXTRACURRICULAR ACTIVITIES

Debate Team Captain

China

Huaqiao University

Sep. 2019 – Jun. 2022

- Led the university debate team to **1 championship, 1 runner-up, and 2 third-place** finishes in regional competitions.
- Received multiple “Best Debater” awards for outstanding performance in formal debate tournaments.
